

2025-2026
COMPANY
PROFILE

OUR HISTORY

DARIV Construction Services started in 2019 by trading power tools in Davao City. Today we handle various concrete-related services such as Concrete Grinding and Concrete Polishing, Microcement, Waterproofing, Structural Retrofitting, Decorative Concrete, Floor Coatings, and Concrete Repairs.

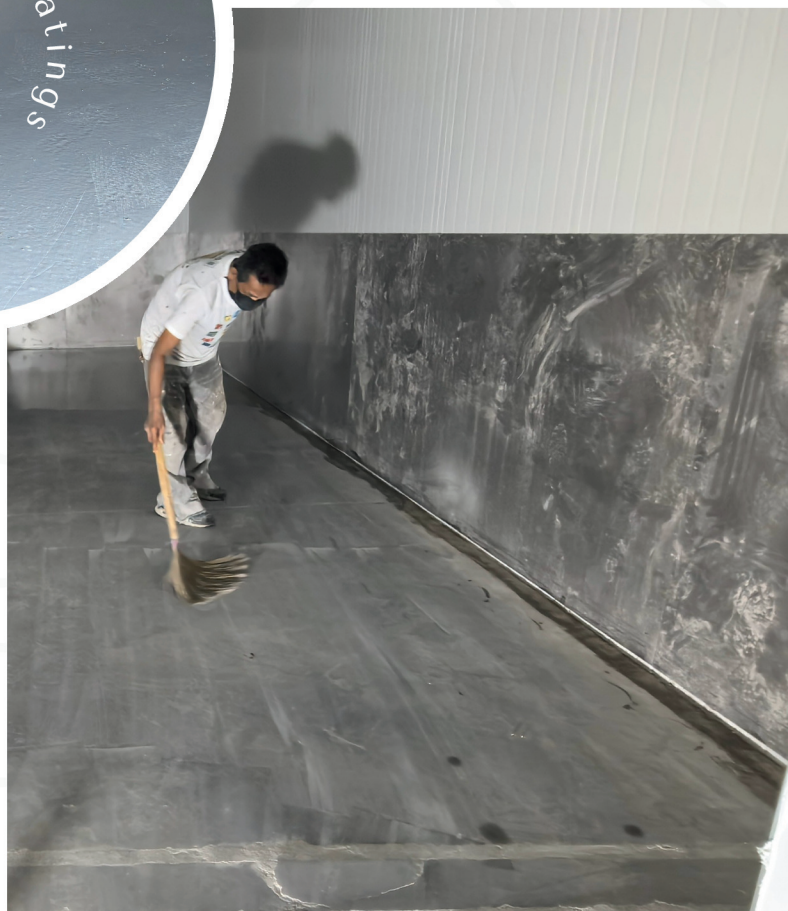

POLISHED CONCRETE

DARIV provides concrete polishing services to clients nationwide, from medium-sized residential floors to large-scale warehouses and industrial facilities.

FLOOR COATINGS

DARIV's concrete solutions include floor coatings for establishments needing floors with high-impact chemical resistance and durability.

MICROCEMENT

DARIV's microcement technology uses world-class components and a top notch system for applying to various indoor and outdoor environments. Its superior performance can make your home or office space stand out with flexibility and beauty.

CONCRETE PLACEMENT

DARIV provides concrete pouring and placement, with laser-leveled screeding and power trowelling works for top tier and solid concrete finish.

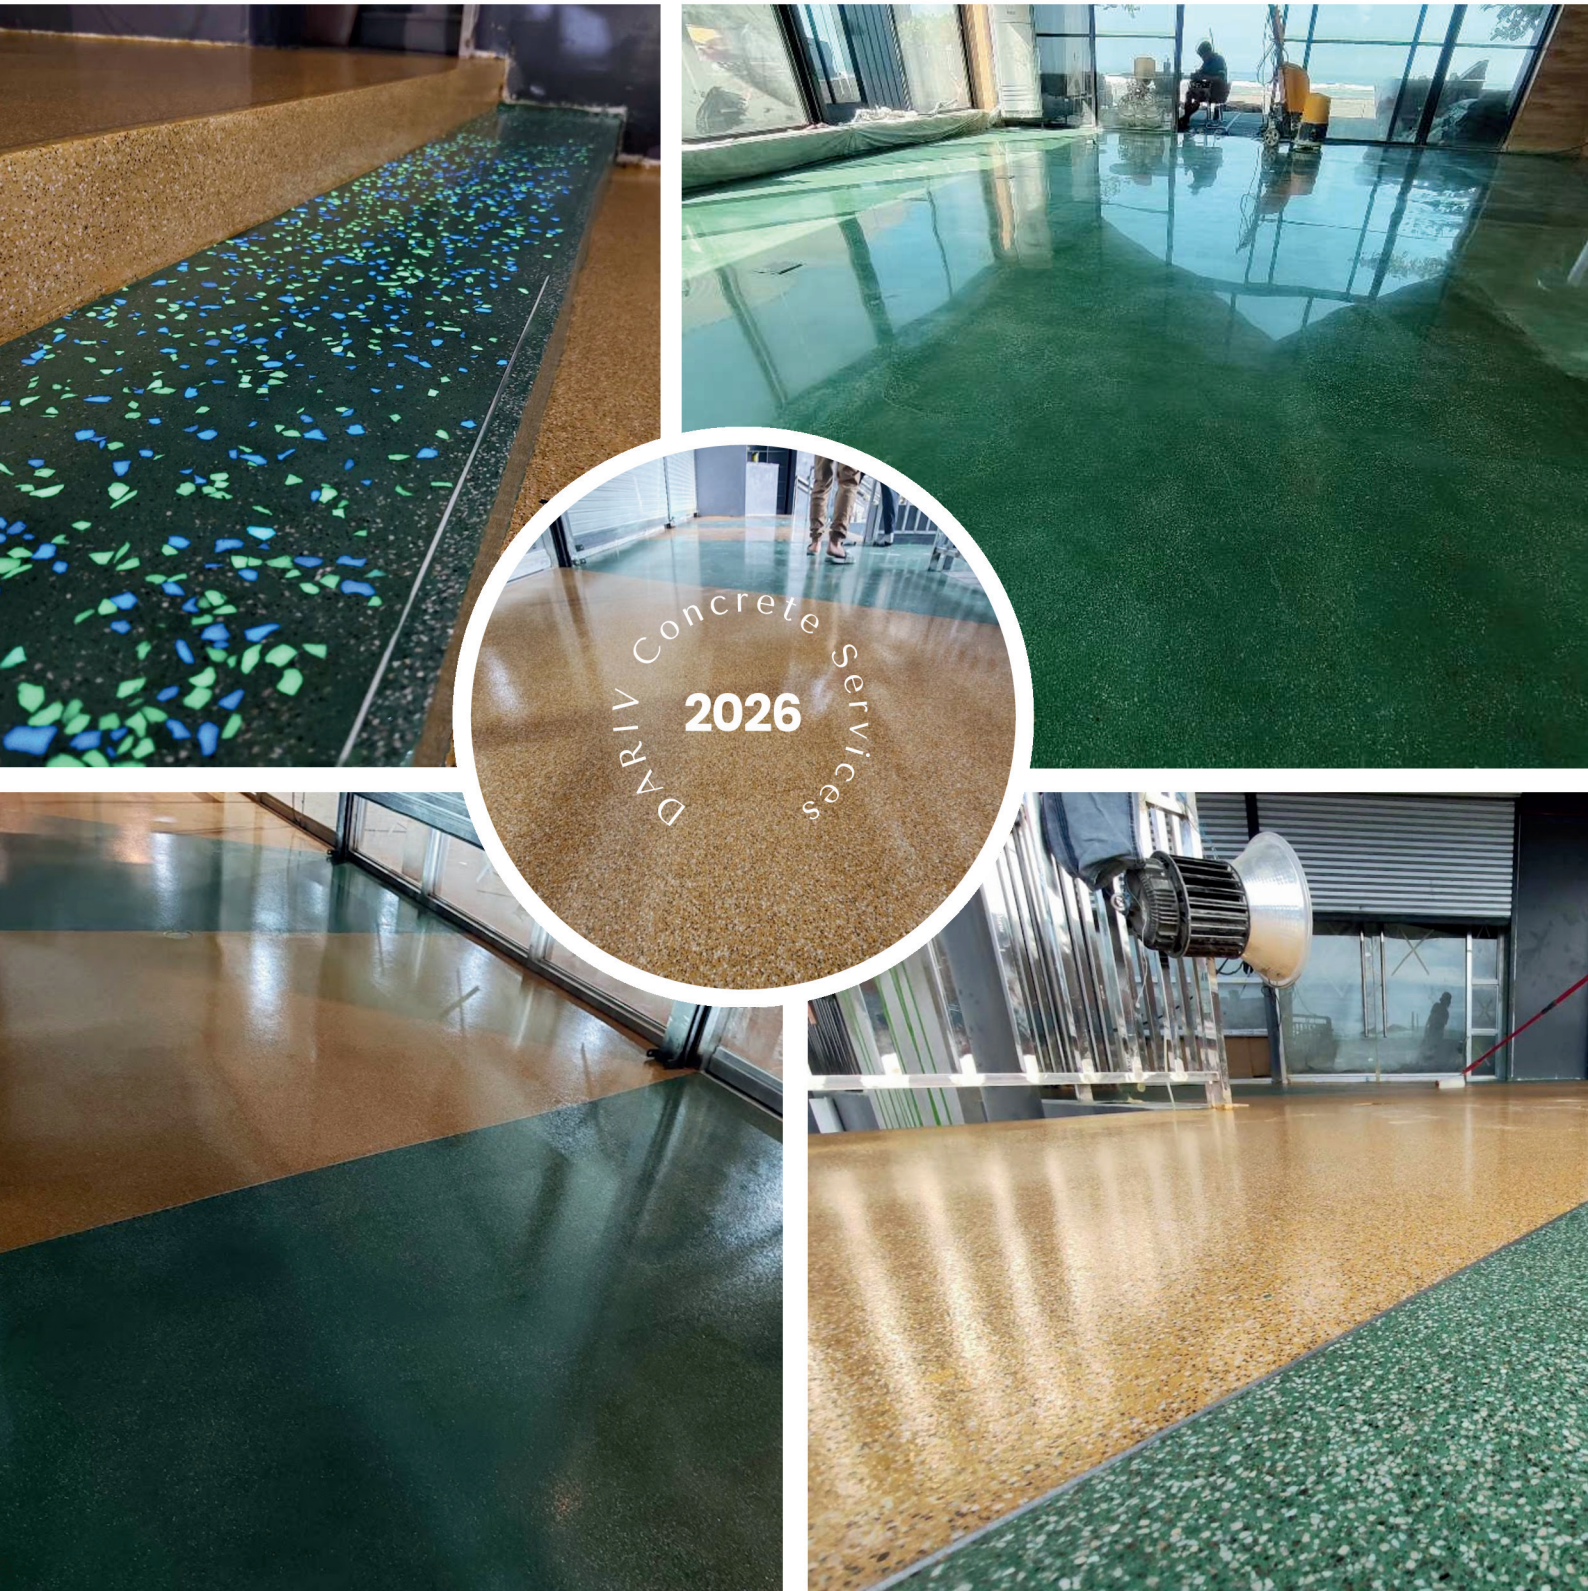

WATERPROOFING

DARIV provides waterproofing to help protect your concrete structures from damages caused by natural or man-made water systems.

DECORATIVE CONCRETE

DARIV provides decorative concrete to enhance the color, texture, and overall appearance of a structure, especially walkways, stairs, and floors.

CONTACT US

DARIV has over 500,000 sq.ms. of completed concrete polishing and other concrete servicing projects nationwide. Send us a message through these platforms and let's turn your dream project into reality.
